A Local History Publication
2008

Join the Oak Lawn Public Library and Local History in preserving the rich heritage of the Village's past!

Local History thanks all of those who make the preservation of the Village's past possible. If there are any questions or comments, please contact us at-

Oak Lawn Public Library Local History
(708) 422-4990 ext.

What is Local History?

Local History is a branch of the Public Library responsible for preserving Oak Lawn's Past. This is done through a number of different avenues including artifact collection and preservation, oral history, public programming and research.

We strive to care for and maintain as much of the past as possible, while offering a place where the community can discover its roots.

What can you do to help preserve Oak Lawn's past?

Each individual has the ability to assist in the preservation of Oak Lawn History! There are a number of different ways to help including participating in oral history interviews and donating artifacts.

Artifacts obtained through donation are an especially important part of Local History, as they are the physical link to our past.

Donations to Local History ensure that artifacts are stored and cared for properly, so that they may be kept safe and displayed for future generations.

If you have items to donate, please contact Local History at the Oak Lawn Public Library at 708-422-4990.

Are you ready for the Oak Lawn Centennial?

Next year marks the 100th Anniversary of the Village of Oak Lawn! Local History will be a part of the celebration with new exhibits and Centennial related programming. We are excited to be apart of the upcoming celebration and festivities, and look forward to community involvement.
